

Delaware Department of Transportation
QUESTIONS AND ANSWERS
Fixed Route Real-Time Transit Passenger Information System
Agreement 1848
Wednesday, May 17, 2017

Q #	Question	Answer
1	Can companies from outside USA can apply for this?	Please refer to: https://dti.delaware.gov/information/standards-policies.shtml
2	Do we need to come over there for meetings?	Not all meetings will require in person attendance; however, in person attendance should be planned for in cases of demonstrations, training sessions, etc.
3	Can we perform the tasks related to RFP from outside USA?	Please refer to: https://dti.delaware.gov/information/standards-policies.shtml
4	Can we submit the proposals via email?	No. All proposals must be submitted per the RFP instructions.
5	Should my business be DBE (Disadvantaged Business Enterprise) certified?	Please refer to the RFP document under the Disadvantaged Business Enterprise (DBE) section for information regarding DBE requirements. A DBE goal may be established if there are federally-funded tasks associated with this Agreement.
6	Does Delaware DOT intend to purchase the sign or screen hardware as part of this RFP? If so, please identify the quantity of signs (defined as LED-dot-matrix displays) and screens (defined as multi-media capable) desired, and if possible, intended locations for installation. If not, please identify the make and model of existing signs to be used, or that will be procured separately.	Yes. Hardware purchase is part of the intent. No existing signs will be used. The potential quantity of signs is directly correlated to the number of key stop locations which also function as transfer stations, park and rides and centralized bus stops in urban, suburban, rural and seasonal (resort) environments. Assuming available infrastructure and barring other circumstances there are ten (10) locations within the current Service Area that meet these conditions. Each could be a candidate for one or more signs. Due to changing needs and budgetary considerations, DelDOT reserves the right to determine locations and quantities as we see fit.
7	We are not familiar with any information regarding your train system. Would this be something that you are able to provide?	All information pertaining to our rail services can be found at: http://dartfirststate.com/
